OUT EARLY

Due to the fact that the post office will be closed on New Year's day, with no mail delivery, Our Town is published on Friday this week. News or advertising received too late because of the change in schedule will be run next week.

OUR BOYS

One of the brightest spots on the horizon of the new year which dawns today is the new life that is being injected into the Boy Scout organization.

The "triple alliance," consisting of the executives, the boys, and their parents, bids fair to accomplish results. This is the one and only foundation on which to build.

Unless the movement has the support of the home, neither the boys nor those who give so largely of their time and energy in leading them can reach the high goal of good citizens toward which they all aspire.

Our boys are a priceless heritage. They will be the future leaders of the community. No finer group of boys eligible to membership exists anywhere. They are active, alert, bright, wide-awake, and keen to observe. They are at the most favorable impressionable age. Narberth should, and could, have the best Boy Scout unit along the entire Main Line.

A good New Year's resolution for every father of a boy in the Borough could be patterned after the Boy Scout oath, paraphrased to read: "I will do my duty toward my boy this year." This could easily be lived up to by assisting him in joining the organization and then accompanying him to as many meetings as possible.

The boys are willing. All they require is the encouragement of their fathers. There is a responsibility in the matter, which can easily be placed.

The Borough needs a good Boy Scout organization. The prospects on this New Year's day are that it will soon have one.

Are your Boiler and Pipes covered? If not, you are not getting maximum results from the fuel burned.

Pipe covering in the average house pays for itself in coal saving in less than three years' time. In addition, it helps very materially in making a more uniform distribution of heat throughout the house.

Two Edged Swords Cut Both Ways.

The electric current which turns the wheels of industry, cooks or refrigerates your food, lights your home or brings to you through the air entertainment and news from the whole wide world can be just as great a power for harm if not properly controlled.

In many ways medicines may be likened to it. They can be factors which contribute to infinite good or harm in accordance with how or when they are used and depending upon all manner of circumstances.

The person without medical training should no more attempt to diagnose and treat illness than should the average person attempt experiments with a high voltage electric current.

Whenever illness threatens get your physician's attention with the least possible delay. That is the sure way to live longer than you otherwise might.

Make Koch's your prescription headquarters. We are always prepared to do such work as your physician would have it done.

INTERCHURCH BOWLING
NEW SCHEDULE ANNOUNCED

Bowlers Had Bully Good Time at Manufacturers' Club.

On last Friday evening the Inter-Church Bowlers had a most delightful time at their meet at the Manufacturers' Club. Several scores of over 200 were made in the three-match games played, and many more were near the 200 mark. Their host was the honorable president, Bill Bailey.

Mr. Bailey announced that this meet during this season of the year would be an annual affair at which three-match games would be rolled and two handsome engraved loving cups be up as prizes for the highest single score made in the three-match game, and for the highest average. The contest is open to all members of the Inter-Church League.

INDEPENDENCE

How can a man be selfish or careless to those dependent upon him when in so being he violates a trust—a confidence placed upon him in good faith. Few men are downright selfish, but we are all careless to a certain extent by putting off today that which we can do with as apparent ease tomorrow.

It is so easy to create an estate by using life insurance. An estate for you when you are dependent at retirement, or for those trusting dependents should you not survive them.
